March has arrived and let's hope the wild weather of February is behind us all. It's gearing up to be a busy time ahead as we wind down from summer projects and onto autumn ones. Plus it's coming to the end of the financial year for many - so stock taking and reorganising are on the horizon.

## Camira Vision

A modern, innovative collection of flat woven technical textiles suitable for automotive interiors.

Transport grade with a high abrasion resistance (>100,000 Martindale cycles). Width 150cm. Has a PU foam and polyamide scrim backing. High quality polyester. 8 patterns and 1 plain.

The background colour of the fabric is enhanced by the delicate use of metallic highlight yarns that create striking colour effects under moving light and co-ordinates with a wide range of trim fabrics.

Vision is foam backed as standard making upholstery easier.
