November is here and the crazy times are back. Our freight companies are facing dramatically increased volumes and have added additional trucks, van and staff to help deal with this, but unfortunately some delays are inevitable. We suggest that you get orders to us as soon as you can so we can process them and get it into the hands of our carriers, and try and avoid last minute urgent orders that may get held up.

We have two new exciting products to showcase this month along with a couple of eye catching specials. Plus our Caribbean™ range of hull liners now has 6 colours with the recent additions of Earth and Cyclone Grey.

The improved weather signals a perfect time to promote our new Llaza awnings to your customers. With drop arm, lateral, cassette and vertical options there is sure to be something to suit.

NEW

Llaza MaxiBox Cassette Awning

- MaxiBox 300 is a complete cassette system especially suitable for large areas due to the unique combination of it's cassette structure, easy installation and modern design.
- Ideal for installation on large terraces.
- Discrete shape conceals mounting elements.
- Features an effective system for aligning the arms so that they fit well inside the cassette, guaranteeing that it closes perfectly every time.
- Available in Black, White and Silver.
- Motorised or Manual.
- Recommended maximum span 15 metres.
- LLaza awnings are supplied unskinned. We stock a range of Recasen's acrylic canvases in plains and stripes as well as Recasen's outdoor mesh suitable for awning applications.

Recasens Nautimar Marine PVC

High tensile polyester base fabric, coated on one side with high quality PVC to resist fading in marine conditions. Ideal for protective covers and biminis. 220cm width, 330gsm, 60m roll.

6 colours —
Black, Navy, Royal Blue, Grey, Sand, Off White.
